

The GED Education services provide eligible offenders with on-site GED instruction at the Community Supervision Department by a State of Texas certified teacher. These services require that the offender assessed as having a minimum 6th grade level of education and that the sentencing court orders that the offender must obtain a GED certificate within the term of community supervision. Individual student tutoring is provided by the instructor using a self-paced computer aided GED curriculum which includes the subjects of English, writing, mathematics, science and social studies. Services are provided Monday thru Friday from 9:00am to 11:00 am. Offenders are successfully discharged upon obtaining a GED certificate.
